

Global Crossroads Lecture Series

The Development and Role of Infectious Disease Policy in the European Union

April 2, 2021

11:00 a.m. – 12:00 p.m. (EST)-virtual

Stefania Kerekes is a Fulbright Visiting Student Researcher from Romania. Her research focuses on health policy strategies applicable in the case of pandemic outbreaks with a goal to understand infectious disease prevention policies on a global level. A comparison between countries' infectious disease policies will be reviewed at the completion of the research study and recommendations will be presented for preventing and managing future pandemics.
