

Studied at the faculty of European Studies

I completed my Erasmus semester abroad at the university Babes-Bolyai. I studied in winter semester at the faculty of European Studies in German. There are many interesting courses to choose from. I also had the opportunity to take courses in English or French. It is not a problem to try courses at the beginning of the semester. I learned a lot, even outside the classroom. The professors are committed and flexible. For questions and problems the secretariat was always able to help me well. Cluj is a lively and livable city. There are many creative bars, cafes and restaurants. Sports enthusiasts can watch football and basketball games or do sports themselves. From Cluj you can travel to Romania by train, bus or car. Romania offers different regions, many beautiful cities and a beautiful nature. I would spend my semester abroad again at the faculty of European Studies!
