
Bachelor degree graduation examination

Starting with the July 2024 session, it is mandatory for students to upload and verify their graduation papers on the [Turnitin](#) platform. **The similarity ratio obtained must not exceed 20%; it will be calculated solely by reference to correctly cited material and does not include reuse of material from the candidate's previous publications and bibliography.**

Students will register on the Turnitin platform using the class ID and enrollment key in the table below:

Papers can be uploaded onto the Turnitin platform a maximum of 3 times in 24 hours (After three attempts, you will have to wait 24 hours before a new Similarity Report can be generated).

Verification can also be made per chapter.

When registering for the graduation examination, the student must ensure that he/she has verified the final version of the graduation paper on the Turnitin platform (approved by the coordinator).
