

### Experience as an Erasmus Student at the Faculty of European Studies

On the 1<sup>st</sup> of October, I started my Erasmus semester in Cluj-Napoca. It was an awesome experience and I can only highly recommend this beautiful city. As a political science student in Germany, I was enrolled at the Faculty for European Studies at the Babes-Bolyai University. When I came to Cluj, I was really confused at first as I also had to change my complete Learning Agreement, but, not for the first time, I experienced the helpfulness and kindness of the Rumanian people. In the International Office of the Faculty, they work with a mixture of high professionalism and loveliness. This helped me a lot for the beginning as well as for the paperwork at the end of the semester. The courses and seminars at this faculty are really good, what I liked the most is that they include a lot of discussions and in general more interactive methods in their teaching. So, ones again, I can only recommend going to Cluj and studying at the Faculty of European Studies. You will find lovely people and really interesting courses.

David K., Erasmus Student from Germany
